RE: South Logan Water Association
2012 System Upgrade Project
PSC Case No. 2013-00203

Dear Ms. Faulkner:

As of October 31, 2014, Bobby Luttrell & Sons, LLC substantially completed work on the line work of the South Logan Water Association's System Upgrade Project. This milestone is all in conjunction with the final successful Bac-T testing result, placement of all waterlines into active service, and completion of rough cleanup.

Based upon our firm's knowledge and witness of the work, we believe that the work was performed in accordance with project plans and specifications approved by the Water Infrastructure Branch of the Division of Water. Therefore, the warranty period for the pipeline portions of the contract will run for a 12-month period ending on or near **October 31, 2015**.

Hence, we recommend acceptance of the water project by the South Logan Water Association. If you have any questions, please feel free to give our office a call.

Sincerely,
MCGHEE ENGINEERING, INC.

Chris Wilcutt, PE
Design Engineer

That would be great. Please reference the case number.
Thank you.

Sorry about that. Yes, the project is complete. Would you like a CD with pdf files of the asbuilt drawings, plus the letter?

Good Afternoon Chris.

I still haven't received the as-built drawings or the certified letter of completion on this project. Your e-mail indicates that you thought it would be completed by the end of 2013. Are you able to send them now?

Please advise.
Thank you.
